DEATH OF WIFE PREYS ON MIND

Community Is Shocked By
Tragic Event Early
This Afternoon

Unable to carry on without his wife, who died a year ago, William B. Fielding, 72, a retired P. & L. E. engineer, ended his life today shortly after noon. Using a .38-caliber gun, the old gentleman shot himself in the right temple at his home at the corner of Winter and Delaware avenue.

Since his wife died over a year ago Mr. Fielding had been inconsolable. They had lived together happily for many years and the shock of her loss was more than he could bear. His one distraction from grief was his flower garden, and here it was that he ended his life, out among the blossoms that he worked with daily.

Life Too Lonely Without Wife
In a note he left Mr. Fielding gave the reason for his rash act. In it he said that he could not go on longer without his wife, that life was too lonely without her, and that he felt the only thing left to do was to join her.

He had been a resident of New Castle for over 40 years and put in a long service with the P. & L. E. railroad, being retired to the honor roll some time ago. Since his retirement he has lived with his daughter and her husband, Mr. and Mrs. Fred Conney. One other daughter survives him, Mrs. William Smith, of Birmingham, Ala. Funeral arrangements will be announced later.

PA NEW OBSERVES

One surmises that no time will be wasted in giving the West Washington street bridge its overhauling. From the way workmen are tackling their job, it appears they appreciate too, what it means to have a busy and heavily-traveled span partly under repairs.

It was interesting to hear a Lions club speaker declare Tuesday that the Beaver, Mahoning and Shenango waterways, were they canalized for barge navigation, would become the second largest freight tonnage producing tributaries of the great Ohio. Now it has 14 improved or partly improved tributaries, with the Allegheny leading from a freight production standpoint.

A great number of insects, somewhat like dragon flies, but smaller, were attracted by the lights on the North street bridge last night. This morning, numbers of dead ones could be seen around the foot of the lights.

Real summer heat was noticed yesterday and today, which is probably leading up to a nice sizzling day on Memorial Day. Last year the weather was ideal on Memorial, but on the two preceding years, the temperature rose to above the 90 mark.

The swimming hole in the Shenango river at the Harbor Bridge was formally opened for the season last night. Six or eight bathers were enjoying a swim in the water at this place.

It wasn't until this morning that many residents arranged their porches for summer but the heat of today hurried it.

Pa. New observed some boys walking along Washington street, with bathing suits under their arms. (Continued On Page Two)

Another Big Contract Will Be Awarded At Pymatuning Dam

Bids will be asked for the relocation of a stretch of the Pennsylvania railroad tracks and the relocation of a highway across the Pymatuning dam, Secretary Lewis E. Staley of the department of forests and waters announced today in Harrisburg. The bids will be opened at 2 o'clock eastern standard time in the office of the Water and Power Resources board on June 12, and the work is expected to start as soon thereafter as it is possible.

The announcement of the department marks the beginning of the end of the work on the Pymatuning dam. The earthworks are erected, the flood gates are being installed and the clearing work is all done.

All that is needed now is to relocate the highway in question and to relocate the tracks of the Pennsylvania railroad and the dam will be finished.

When the dam was first started it was seen that the tracks of the Pennsylvania railroad would be inundated if they were not moved. Because the state was responsible for the dam work, the work of relocating the railroad tracks became a state obligation. In addition, a highway must be relocated as the main highway above Turnerville is at the level of the dam floor. This will cross the top of the earthworks dam, much as the highway across (Continued On Page Two)

Council Moves To Open Cascade Park Next Week

Five Members Of Park Commission Have Now Been Selected

BLAKE WILL HEAD BOARD IS PLAN

Council To Complete Negotiations For Park Operation On Friday

Plans were mapped out today by city councilmen for the formal opening of Cascade Park, under city control, Tuesday, Memorial Day, solons having indicated that the park will be conveyed by deed of trust from the Pennsylvania Power Company to the Recreation board by ordinance at council meeting Friday.

Today's meeting of council was informal. During the session the council selected a majority of the park commissioners. Those selected today are Thomas Blake, Frank Hill, Major Guy Edward J. Davis, Blake Markley and Edward J. Davis. Blake will be chairman and Hill secretary of the commission, it is expected.

No Sunday Amusements.
A tentative conclusion has been reached as to whom the committee will give the dance pavilion privilege. Pending confirmation by council Friday the successful applicant will not be named until Friday. However, council and members of the commission said that a local orchestra will play at the park.

It is said that there will be no operation of amusement devices on Sundays. However, there will be band concerts of sacred music and community songsters, starting June 4.

According to reports the flowers which have been reared in the Cascade Park greenhouses have been transplanted and the concessionaires will start preparing for the opening Tuesday.

The members of city council and members of the park commission visited Cascade Park this afternoon to determine upon speeding up preparation for the formal opening Tuesday.

President's Industrial Recovery Program Runs Into Opposition

SHOWDOWN ON BILL PROMISED

(International News Service)
WASHINGTON, May 24.—President Roosevelt's industrial recovery program encountered opposition from insurgent house Democrats today, but leaders nevertheless progressed with plans for speedy passage.

The gigantic partnership between the government, business and labor created under the bill by suspending the anti-trust laws drew fire from Democrats who declared the measure violated the historic policy of the party.

State Official Presents Beer Law Interpretations

(International News Service)
HARRISBURG, May 24.—An interpretation of the Pennsylvania beer control bill, which becomes effective June 1, today disclosed numerous "jokers" and "loopholes." Catechetical interpretations were made by Wilhelm F. Knauer, special deputy attorney general, in response to numerous queries from county treasurers.

Unless a person lives within the limits of a municipality or township he cannot obtain a license for the retail sale of beer within that area. This prohibits persons living in the suburbs of large cities from dispensing beer in the city proper. A wholesale distributor, however, may sell and ship the beverage to any place within the state.

All officers and directors of corporations seeking licenses must be citizens and residents of Pennsylvania for three years prior to the filing of the application. This automatically makes it impossible for corporations, whose officers or directors are residents of other states, to set up retail establishments.

Licenses may be granted at any time during the year providing the applications have been on file with county treasurers one week before the date of issuance.

Although bars are outlawed, the bill permits beverages to be drawn from spigots attached to lunch counters providing they are equipped with stationary chairs.

If one room of an establishment fulfills the requirements of an eating place, having an area of 300 square feet and seating accommodations for 40 persons at one time, beverages may be served in additional rooms. The act also tolerates outdoor gardens providing they are used in conjunction with and comply with the requirements of eating places.

The act makes no provision for compensating county treasurers for their work in issuing the licenses.

Will Delve Deeper Into Morgan's Affairs

By EDWIN C. HILL
International News Service Staff

WASHINGTON, May 24.—J. P. Morgan, colossus of international finance, with \$250,000,000 in his wallet, even in this flattened world, makes his way, as this is written, to resume his sensational testimony before a divided and wrangling senate committee on banking.

If the course of this fair May day is as pyrotechnic as the first day Mr. Morgan smiled and joked his way through a hurricane of testimony, they'll have to call out the regular army to herd back the crowds from the committee door.

Ferdinand Pecora, the senate committee prober, stung and smarting by Mr. Morgan's imperturbability and his quite imperial vagueness about a handful of millions, and downright angered by the apparent disposition of some senators to spring to Morgan's defense, is ready, he intimated today, to launch a few

handmade thunderbolts at the titan of Wall Street.

Why No Tax Paid?
He will insist on more specific information as to why Morgan failed to pay income taxes for 1930, 1931 and 1932. And he will insist on knowing what "friends," if any, were taken in the ground floor by the Morgan firm in prosperous years, and permitted to buy securities from Morgan at below market prices.

He may become so impatient as to demand if any of these "friends" had Washington addresses.

And he will certainly make a further effort to find out what profits the twenty Morgan partners drew down in the fat years. The fight is on, full cry. The hounds are baying on the trail, but the bear they are after (or bull, if you like) trots ahead placidly, even good-humoredly and still a bit ahead of the hue and cry. It's drama with a capital D. It has been from the moment the hearing began.

Twenty-Five On Subway Injured In New York City

Four Are Injured Seriously As Subways Crash At Brooklyn Station

(International News Service)
NEW YORK, May 24.—Twenty five persons were injured, four seriously in a rear end crash of two subway trains today at the Brooklyn museum station of the I. R. T.

A Flatbush avenue train, according to first reports flashed to police headquarters, was just pulling out of the station, when a train bound for new lots roared in.

The crash could not be prevented and the trains telescoped.

The small crowds were thrown into a panic, as frightened men and women scrambled for safety.

In his control cabin in the second train, Motorman James C. Reynolds was held a prisoner by the crushed steel. It was believed he was dying.

Police and firemen waged a frantic race against death as they began cutting Reynolds out of his cabin prison.

Davis And Dawes Among Borrowers From J. P. Morgan

List Of Large Borrowers Is Presented At Senate Probe Today

NOTED BANKER IS STILL A WITNESS

Senate Probers Continue To Seek Facts Regarding His Banking Business

By WILLIAM K. HUTCHINSON

WASHINGTON, May 24.—Norman H. Davis, America's roving ambassador in European conferences, and Former Vice President Charles G. Dawes were named among commercial bankers, borrowing more than \$100,000, from the firm of J. P. Morgan & Company in a list disclosed today at the senate banking inquiry.

Davis and Dawes topped the list, which also included officials of the Chase National bank, the Bank of New York and the First National bank of New York City.

Among others on the list were Hiram E. Manville of Johns-Manville corporation and a member of the advisory committee of Chase National bank; Richard Whitney, president of the New York Stock Exchange; Charles E. Mitchell, now on trial for alleged income tax frauds; Albert G. Milbank, director of the Chase National bank and the Equitable Trust company, and Myron C. Taylor, director of the First National bank.

Amounts Not Given.
The amounts of the loans were not announced.

Only one, a \$6,000,000 loan to Charles E. Mitchell, former chairman of the board of the National City bank, has become known to the public previously. This information was revealed at Mitchell's trial in New York City for alleged income tax evasion. The loans all were made by Morgan between Jan. 1, 1927, and Dec. 31, 1931.

Morgan was recalled to the stand at 10:30 a. m. as the morning session opened. He wore a black suit with a black and white checkered tie. His bald head was perspiring. Pecora opened the questioning. He recalled yesterday's question as to whether the Morgan firm made loans to officers or directors of commercial banks.

Pecora showed Morgan a list which he asked him to identify, embracing the period Jan. 1, 1927, to Dec. 31, 1931.

"That is a complete list, I understand," said the great banker. Pecora then read the list slowly, asking Morgan to tell him the bank with which each name was identified.

In the announcement, Secretary Staley states that \$15,000,000 of embankment will be needed, \$9,000,000 of excavation, 20,000 yards of riprap, one 36-foot span of concrete highway bridge, one 25-foot steel girder span railroad bridge, and a concrete dam approximately 100 feet wide and 18 feet high.

The recent session of the general assembly appropriated \$500,000 for the work to be done on the dam, and it is expected that the contracts will be used practically all of this. At the present time the highway from Epsville to Andover is being constructed and the rip-rap stone for the job is being taken from the Neshannock Falls quarries. This order is for 100,000 tons. The order for stone for the work just being advertised will run approximately 45,000 tons. It is not known whether this stone will come from Neshannock Falls.

Bank Deposit Insurance Plan May Be Passed

House Passes Steagall Bill By Overwhelming Vote; Senate Hostile

WOULD SET UP BANK GUARANTY

(International News Service) WASHINGTON, May 24.—Enactment of legislation setting up a nation-wide system of bank deposit insurance during the present special session became a strong possibility today as a result of house passage of the Steagall bill late yesterday by a vote of 262 to 19.

A wide gulf still separates senate and house on bank reform, but chairman Steagall (D) of Alabama of the House Banking committee predicted an agreement could be reached.

The house measure sets up a depositors guaranty corporation to include all Federal Reserve banks. It also permits state banks to join the system upon examination, while the bill of Senator Glass (D) of Virginia would compel them to make application for admission to the reserve system.

Deposits up to \$10,000 would be guaranteed 100 percent; deposits, \$10,000 to \$50,000, 75 per cent, and all over \$50,000, 50 percent.

Information On Vet Legislation Is Received Here

Questionnaires Are Being Mailed To Vets Whose Claims Are Reviewed

NEW REGULATIONS FURTHER DEFINED

Additional information, pertaining to the regulations being observed under the new Veterans Act, passed March 20, has been received by the Lawrence County Chapter, American Red Cross.

It is stated that new pension forms for living veterans and three for dependents of deceased veterans are now being printed and will soon be made available through the Veterans Administration.

Questionnaires are being mailed by the Veterans administration to persons whose old claims are being reviewed, when it is found that benefits will probably be payable under the Act of March 20, to secure up-to-date information needed for final decisions as to whether payments can be made. These must be notarized and returned within 30 days. If not, the payments will be disallowed and no further payment will be made. A new claim will have to be filed.

Service Connection In case of a man being cut off from compensation, he will have to prove that disability arose in the service or within one year after discharge, except in the case of tuberculosis, which can have arisen within two years.

Examinations for hospitalization or domiciliary care at a home will be made at all Veterans Bureau offices within twenty-five miles. Otherwise the examinations will be conducted by a designated physician in the home community of the applicant.

No transportation will be allowed for hospitalization, and examination will not be authorized except to determine the need for hospital treatment for a service-connected disease or injury, when service-connection has been previously established.

Men who appear at homes or hospitals for examination without authority, will be told they must go to the regional office or to a private physician at their own expense.

Claimants are permitted six months to file a claim for a review of their case, but in case of claims being reviewed now, the time limit has been extended to January 1, 1934. No correspondence will be entered into to get additional information, except in cases of dependents of deceased veterans of the World War.

Rayburn, he said, was a director of the Guaranty Trust in 1929. He said Richard Whitney, president of the New York Stock Exchange, was a director in the Corn Exchange bank.

Pecora asked Morgan whether it was correct that Norman H. Davis, Richard Whitney, C. E. Mitchell and seven others had not repaid their loans.

"That conforms to my list," said Morgan. "I have no knowledge of it."

Refers to Whitney. "When was the Norman H. Davis loan made?"

"The list doesn't say," replied Morgan, and leaned back to talk to George Whitney, one of his partners.

The question was not answered at the time.

"Have you any personal knowledge or information of the loan to F. C. Dumaque?" Pecora continued. "No," said Morgan, adding that he had no information as to a number of loans, and suggesting that Whitney be called to answer these questions.

Morgan was asked for details of the loan to Charles E. Mitchell. "I have no accurate knowledge of it," said Morgan. "I suggest you call George Whitney for that information."

As Pecora kept asking Morgan about each unpaid loan, the financier would reply: "I make the same answer. I have no knowledge of it."

(International News Service) Geneva, May 24.—Norman H. "It seems perfectly natural for a man to borrow money," replied Davis. "I see nothing extraordinary about that, but I am unable to make a statement at this moment."

today after looking at pictures of
the escaped Western Penitentiary

KANSAS CITY FEELS BREATH OF SPRING

(International News Service)
KANSAS CITY, Mo., May 24.—
Youth, driven from the more se-
cluded roads and darkened streets
by "spooney bandits" who prey on
amorous couples in the dimly
lighted spots, has found a haven
in the thickest of traffic.
The parking sheds at the Union
Station, patrolled by police and
ligned none too well, offer a safe
convenient spot to engage in spring-
impelled fancies.
Station officials decline to enter
a protest, contending there is plen-
ty of room for automobiles to park,
and police decline to interfere be-
cause of the lessening of "spooney
bandit" activities.

Foresters' Drills Begin On Tuesday

Fort Washington Men Feel
Real Army Life As Camp
Work Starts

BOYS INNOCULATED;
SUNDAY REST GREAT

(Special To The News)
FORT WASHINGTON, Md., May
24.—Announcement as to what for-
est the New Castle regiment of the
civilian conservation corps will be
transferred to is not to be made un-
til the day before departing from
here, it has been learned.
With the 100 New Castle youths
already making a creditable show-
ing at the fort, the boys have set-
tled down to show army officers
what real obedience and discipline
is.

Officers "Fine Scouts"
Officers are treating the foresters
fine, and everyone is co-operating
with them to the best of their abil-
ity.
Company 367 is the unit to which
the New Castle boys have been as-
signed—that is, all but two. John
Hill and Sam Saul are trying their
best to get transferred from the
group to which they were sent.
Sunday was a welcomed day at
camp, for the much needed rest
was something the boys greeted
heartily. Arduous routine the day
before had tired them.

Hikes, games and just general
"loafing" were enjoyed in the
morning, while in the afternoon an
army team played a civilian con-
servation corps team in baseball.
In the evening many of the boys
took in a camp show, operating
here on Tuesdays and Sundays.
At Fort Washington there are
four mess halls, each having a seat-
ing capacity of over 200. Waiters
are chosen from the boys with a
new corps officiating each day. They
get "kitchen police" for the title as
in any army camp.

Helping the waiters all they can,
the entire group of diners carry
their dirty dishes to the kitchen
when the meal is over.

Innoculation Comes
Monday brought inoculation and
vaccination for the boys, but even
the "take off your shirts" cry of the
army men didn't bother the boys a
great deal. There was evidence of
some shaking at places.

As each forester entered the hos-
pital door his right arm was paint-
ed with iodine and his left arm
rubbed with alcohol. In a few sec-
onds the operation was over. Sev-
eral of the boys felt the innocu-
lation effects, but the majority hard-
ly felt it.
On Tuesday morning the first of
the camp drills were started, fur-
nishing the boys a more realistic
touch of army camp life.

Stone needles with a hole in the
end opposite the point are found in
the remains of the Stone age.

Mooney Trial May End Today

Worthless Trial Of Tom
Mooney To Come To End;
No State Witnesses

STATE TO ASK FOR
NOT GUILTY VERDICT

(International News Service)
SAN FRANCISCO, May 24.—An-
other episode in the famous and
lengthy Tom Mooney legal drama—
his trial on a 17 year old murder in-
dictment, may pass into history by
nightfall today.

Although the famous prisoner's
life is theoretically at stake, a ver-
dict of acquittal after a brief trial
seemed certain.

The crime charged is identical
with the one for which Mooney was
once convicted and sentenced to be
hanged—the death of one of the ten
persons killed by the explosion of a
bomb during a preparedness day
parade in 1916.

Hollow Victory
There was every indication the ac-
quittal would prove a hollow victory
and in the language of presiding
Judge Louis H. Ward, worthless in
the eyes of the world, for the state
planned to offer no evidence against
the prisoner.

With four men and seven women
in the box, the jury was expected to
be completed soon after court re-
sumed.

The state, through deputy district
attorney William Murphy, without
presenting a single witness was ex-
pected to ask for a directed verdict
of not guilty.

Cuban Rebels Score Victory Over Federals

Government Officials Refuse
To Discuss Defeat Of
Federal Troops

REBELS LED BY
JUAN HERNANDEZ

By CLIFFORD GALLOWAY
International News Service Staff
Correspondent

HAVANA, May 24.—Officials of President Gerardo Machado's government maintained tight-lipped silence today in the face of reports that Federal troops had suffered a serious defeat at the hands of rebels in Santa Clara Province.

According to the advices received here, the government troops were routed in the bloodiest battle in a week while attempting to surround guerrilla raiders in the Banao mountains near Sancti Spiritus.

The rebels were reported led by Juan Blas Hernandez, insurgent commander. Definite information regarding casualties in the clash was not immediately forthcoming.

Plane Crashes
An army plane hurrying into Santa Clara City with reports of the defeat and requests for federal reinforcements crashed on the outskirts of the town. It was believed the flier had been wounded while flying over the battle field and had died the moment before reaching his goal.

It is known that the rebels have not been dispersed as the government claims, but are entrenching themselves in the hills in rapidly increasing numbers.

Major Ortiz, who has been in charge of federal operations in Santa Clara Province, was in Havana today after having been ordered in from Moron.

Retirement of Gen. Alberto Herrera as chief of staff was announced. He will be replaced by Brigadier General Eduardo Lores.

Anyway, this has taught us that the chief fault of a debtor consists in being small enough to lick.

Large Trout Being Caught In State

HARRISBURG, May 24.—High water and cold weather regarded by trout fishermen generally as jinxes to good catches don't mean a thing apparently judging by reports received from wardens by the Fish commission. Early season indications point to the shattering of all big trout records for the past four years.

At least twelve trout, exceeding twenty inches in length have been reported taken. Minnows and night crawlers were most effective baits in the capture of these fish.

Topping the list, from the weight angle was a brown trout, 27 inches long, weighing eight pounds. It was caught in the Yellow Breaches Creek, Cumberland county by Harry Squibbs of Lehigh Station. A brown trout, 23 inches in length was

caught in the Frankstown Branch of the Juniata River by Landis Robison, Canoe Creek. From the Big Brokenstraw in Warren county comes a report of the catching of a 24 inch brown trout by C. L. Miller, Warren angler.

Potter county waters are yielding some giant brown trout this year. A 24 inch brownie, weighing 4½ pounds, was taken from the West Branch by Gus Shaner of Galeton. R. D. A brown trout 22 inches was caught in Lyman's Run by Clair Rexford, of Gaines.

Runner up to the giant brown trout caught by Harry Squibbs, is the big brownie landed in the Sawkill Creek recently by Edward Bosler, Pike county angler. Bosler's catch was 25 inches long weighing 5 pounds, 6 ounces.

Twenty-Seven Bills Signed

Long Bill Changing Law Governing Filing Of Nomination Papers, Vetoed

(International News Service)
HARRISBURG, May 24.—The Long bill, which would have radically changed the law governing the filing of nomination papers, was dead today at the pleasure of Gov. Gifford Pinchot.

The governor denounced the bill as "vicious legislation." It would have required papers to be filed at least 14 days before a primary election. "If a nomination at the primary election is stolen, a defeated candidate would have no adequate redress, and could not secure the printing of his name upon the official ballot for the general election as an independent candidate," the governor said.

He approved 27 and vetoed ten other bills.

Protest Boost For Gas Tax To Provide Revenue

Four Pittsburgh District Motor Clubs Send Telegrams To Reed And Davis

AGAINST FEDERAL TAX INCREASING

(International News Service)
PITTSBURGH, May 24.—Four Pittsburgh district auto clubs today dispatched telegrams to Senators Reed and Davis of Pennsylvania protesting against the proposed increase in federal gasoline tax to help finance the administration public work program.

The message was sent by the Pittsburgh Motor Club, the Westmoreland Motor Club, the Apollo Motor Club and the Kittanning Motor Club. The latter three organizations are affiliated with the Pittsburgh group.

The telegram read:
"The Pittsburgh Motor Club protests against injustice of imposing additional three-fourth cents per gallon gas tax as provided in house bill 5664, and urges your cooperation for defeat of that measure. Motorists already are most heavily taxed class in America. Added to state gas tax, this would constitute sales tax of unheard magnitude."

Ne-Ca-Hi Graduation Records Topple With 500 Seniors This Year

Late in the evening of Tuesday, June 6, an all-time record will have been made by the Senior high school. Not an athletic feat but a commencement record!

Before the curtain drops on that graduation program a total of 401 seniors will have received diplomas from the school during 1933. On that night 282 will get diplomas while last January another 209 were graduated.

It has been seldom that a group even two-thirds as large has graduated from Ne-Ca-Hi since the semi-annual commencements began in January, 1928, and seldom, too, have classes been half as large as the 500 group in the days when sheepskins were presented only in June. School officials interpret the increase as an indicator of even larger groups.

Principal F. L. Orth recalled this morning that it was in 1926—when a class of 320 was graduated—that a peak was reached in commencements, that is for the commencements when they came once a year. The record was never broken.

The January class of this year shattered all January graduation records, while the 282 figure for the coming event shows a sharp jump over June figures since the two-commencements-a-year schedule started.

Building New Taxed
Year after year they grow larger, officials said, and year after year the building is crowded more. Now part of the high school group is attending special classes at the George Washington junior high school.

In 1912 the Senior high, then called only New Castle high school, graduated the first class from the Lincoln avenue building. Since that commencement until now—21 years—the classes have changed as fast as the times.

Better Business Is Noted By P. & L. E. German Baptist Sacred Concert

Freight Agent Stone Reports 'General Improvement' During Past Month

A declaration by Freight Agent W. A. Stone that local freight business on the P. & L. E. railroad has shown a decided increase within the past month, circulated more cheer through business circles here today.

"There has been a general improvement observed in both merchandise and carload shipments," said Mr. Stone. "Without a doubt business is better."

Mr. Stone's statement reinforces earlier reports from other railroads of the district.

HOW DOES BORO GET SO MUCH REAL CASH?

BUTLER, Pa., May 24.—C. J. D. Strohecker, member of the Zellenopolis council and prominent business man, filed a suit in equity Tuesday in which he asks Judge Thomas W. Watson to enjoin the borough council from levying any taxes for the current year.

Although the levy imposed is only 4½ mills, Strohecker avers that the borough has a surplus of money, more than enough to pay all the expenses for the next year. He says that on January 1, 1933, the borough had a cash balance of \$17,476.20 and that the total expenditure for 1932 was \$2,207.

FAIL IN TESTS

HARRISBURG, May 24.—Twenty-five per cent of those taking the examination for motor vehicle operator's licenses in 1932 failed to pass, the annual report of State Highway Patrol shows. In the past year patrolmen approved 120,450 operators and rejected 41,518 applicants.

BLANKET WASHING TIME NEWS EXTRA

Thrifty Wives Everywhere Get Wonderful Results this Easy Way

BLANKET WASHING TIME—and everywhere women are using the thrifty Lux way that leaves blankets clean and fluffy and soft... costs next to nothing!

Cleaning is so expensive—Lux washing so very economical. Of course, cake-soap rubbing—or soaps containing harmful alkali—tend to shrink and mat woolen fibres, leave blankets harsh and stiff. Tend to fade colors, too. But Lux has no harmful alkali, and with the rich, fast-working Lux suds there's no rubbing. Anything safe in water is safe in Lux!

Mrs. L. R. Walker,
New Orleans, Louisiana:
"I have been using Lux for blankets as well as for all my woolens and silks for years, and I am sure it is due to Lux that they have stayed so beautifully soft and new. I have blankets that I bought just after I was married, and honestly, you would think I had bought them this year."

Mrs. S. P. Vatcher, Lynn, Mass.:
"I used to send my blankets to the cleaners—I thought that was the only way to keep them nice and fluffy looking. But now, when we have to save every penny, I am washing them with Lux. They look every bit as nice as when they were cleaned—soft and fluffy and colorful."

MRS. H. C. SEGUR

Mrs. H. C. Segur, Auburn Park, Illinois: "Many a time my blankets have been dragged out when the children want to go on camping trips, picnics, or 'play house.' I don't mind because, no matter how often they are washed with Lux, they come out looking like new."

EXPERT LUX METHOD
Wash each blanket in rich lukewarm Lux suds. Never use hot water. Squeeze the suds through the blanket—do not rub. Rinse thoroughly in lukewarm water, but don't squeeze water out, but don't twist. Hang the blanket up. Dry in shade, never near heat.

The members of Star of Wales Lodge No. 60, True Iovites of America, will meet next Saturday evening at their regular place when the report of the sick and finance committees will be given.

Emmanuel Baptist church members and friends had a glorious Sunday when Dr. L. E. Fisher, of New Castle, occupied the pulpit in the morning at 11 o'clock and delivered the beautiful message of Jesus Christ. Dr. Fisher is a man of great knowledge and is a powerful speaker. In the evening a sacred concert was held. Scripture reading was by Miss Ann Jones; hymn by the audience; solos, Miss Ellen Jones, Mrs. William P. Vogan, Mrs. William Bludorn; speeches by Griffith Phillips and Brinley Hughes; dismissal by T. L. Jones.

Rev. Rees T. Williams, pastor of the First Congregational church, and others, attended the singing festival, Cymanfa Ganu, at Steubenville, Ohio, on last Sunday, May 21, and he conducted the services there afternoon and evening. He did his work wonderfully well.

Good news is still coming from the friend, William Harvard, of Warren, Ohio. He is travelling fast on the road of recovery after being down deep in the valley of illness and pain. He spent three weeks at the Cleveland hospital. His friends and especially his aged father, John Harvard, are very happy over his recovery.

William Sherwood Johns, son of Prof. Richard E. Johns, of Park avenue, a student at the Bethany College, has returned to his studies after visiting his father and spent his birthday at home. He has another year at college before he will be graduated.

William H. Richards, director, and his splendid choir, of the Emmanuel Baptist church, are preparing very busily for the sacred concert to be given in the church in the near future when the two talented sisters, Annie and Gladys Thomas, with their friends, will do their part in music.

STATE EXPORTS DROP IN 1932

Pennsylvania Continues To Rank Fourth In Nation However

By ARTHUR C. WIMER Special Washington Correspondent New Castle News WASHINGTON, D. C., May 24.—As in 1932, Pennsylvania continued to rank fourth of the states in the value of exports in 1932, the Commerce Department reports. Pennsylvania exports fell in value from \$180,233,538 in 1931 to \$100,425,070 in 1932. This was a decline of about 44 per cent. Exports from

the country as a whole, on the other hand, decreased only 44 per cent in value.

Despite this substantial decline, however, Pennsylvania continued to rank fourth of the states in exports in 1932. The same three states outranked her in 1932 as in 1931, Texas, New York and California. Texas and New York changed places, New York falling from first in 1931 to second in 1932, and Texas, advancing from second in 1931 to first in 1932.

Ohio ranked eighth of the states in exports for 1932, such shipments of state products being valued at \$51,288,057 for that year. Ohio had ranked seventh in 1931.

The average radio receiver in the United States is tuned in 4.17 hours a day, according to a college professor's survey.

Field psychiatrists for the bureau made 26 special examinations during the month and conducted 70 psychiatric examinations of inmates in State institutions.

ELECT DIRECTORS AT NEW CASTLE Y. W. C. A.

Local Y. W. C. A. Members Gather

Annual Dinner Meeting
Takes Place; Association
Report Submitted

PITTSBURGH WOMAN IS GUEST SPEAKER

After accepting a recommendation that no member of the board of directors be eligible to serve for more than two consecutive terms of three years each without a lapse of one year's time, the membership of the local Young Women's Christian Association last night elected the following members to the board:

To serve for 3 years—Mrs. A. B. Fankhauser, Mrs. H. M. Kirk, Mrs. Roy Long, Mrs. John A. Byers, Mrs. Earl Douglas, Mrs. Elder Bryan, Miss Jessie Jenkins and Mrs. O. F. Brown.

To fill vacancies on board for 2 years—Mrs. Charles Metzler and Mrs. Glenn Berry.

Nominating Committee
At this time also, the 1934 nominating committee was elected. Two members of the committee, Miss Elsie Butz and Miss Alice Sterling, were elected from the present board of directors, while three were elected from the general membership—Mrs. W. J. Offutt, Mrs. Robert Fleming and Mrs. James Clements.

The newly elected members of the board of directors will serve their full terms before the recommendation going away with more than two consecutive terms will go into effect. The amendment, made by the nominating committee and accepted by the board of directors and general membership, is for the purpose of getting a constant flow of new workers in the governing body of the Y. W. C. A.

It was with renewed courage and enthusiasm that the women looked ahead to the coming year's work. At last night's annual meeting they looked back on the past year's work in the existence of the organization—a year fraught with desperate problems—but a year crowned with success.

Pittsburgh Woman Speaks
Guest speaker last evening was Miss Carolyn Marsh, resident hostess of the East Liberty Y. W. C. A. of Pittsburgh, who has seen 10 years of service in Japan. Her talk on "The Y. W. C. A. of the World" featured the program.

Mrs. A. B. Fankhauser, president of the board of directors, presided. The business meeting and program began immediately after dinner. Mrs. Raymond Williams of the Elm street branch led in prayer. This was followed by an excellent inspirational talk by Rev. Margaret Joshua. Mrs. Joshua closed by saying that the women of the Y. W. C. A. should continue as ever to go forth to do His work in His way, keeping their hands in His.

Miss Emily Rice gave the secret.

Tell of Club Work
Descriptive talks on what is going on in the various clubs of the "Y" were given by Miss Helen Martin, Miss Jane Bechtol, Miss Helen Flisco, Mrs. Hanna Braswell and Mary Ellen Henderson.

Miss Anna Valeska, Slovakian worker for the Youngstown, O. International Institute, was a special guest of the evening and offered a number of folk songs in the Czech language. She was of a most attractive personality. She wore a native costume.

Miss Carolyn Marsh gave an enlightening talk concerning Y. W. C. A. of other nations, and especially of Japan, where she was located until two years ago. She told of the homes furnished for factory girls who have lost their jobs because of the drop in prices of silk, of the classes in home economics, cooking, sewing, reading and writing.

At the close of the address she answered questions from the audience.

Year's Work
A report of the past year's work of the New Castle Y. W. C. A. awaited each member at the dinner tables. The report in part follows:

In such a period as the 12 months just closed, there must needs be earnest weighing of all parts of the program and administration of the Young Women's Christian Association. We had to ask ourselves if there was a vital need for clubs and classes and recreation such as the more prosperous years. The answer plainly seemed to be that we must do more than "just keep the building open" if we were to justify its expense to the community and that we must use our building wisely to carry out the purpose of the Young Women's Christian Association.

After conferences with the Community Chest Board and Committee setting up conference a visit from 2 of our National Secretaries, and finally a meeting of the whole membership with representatives of all our membership groups, it was decided that our own members should try to continue our whole program for as many months as possible.

This meant doubling up of work for the secretaries who were left after two resignations had been accepted and closing the program work for 2 1/2 months in the summer. As a result, our outstanding indebtedness of \$2650 on the first of November has been reduced to \$431 on May 1.

Our nine dormitory rooms have taken care of 151 transients, 15 permanent guests as well as 214 for night's lodging to girls who were out of work or the women and children sent to us by the Rescue Mission. The Y. W. C. A. is the only place aside from the jail where a woman can spend the night without cost.

Our employment bureau has lent an understanding ear to 568 women and girls who have registered for employment and found 177 part-time or full time jobs for them. Our Traveler's Aid program has assisted 58 girls and women in finding relatives who would be responsible for their care. Many special cases about which no one knows what to do, are "mothered" by our night

matron, such as the 4 little children Detroit who spent Christmas eve at the Y. W. C. A. when their mother had been fatally injured in an auto accident and the Y. W. C. A. was the only place the hospital knew to call to keep them on Christmas eve until relatives could be reached.

The religious education committee secured Dr. G. S. Bennett again this year to teach the Community Bible Class. The Education committee sponsored a free class in Review Shortland again this year. The registration of 40 was not so large as last year due to the new classes at night school for girls who were out of work and also to their inability to get jobs where their short-hand could be used. Last fall the education committee started a luncheon program for home workers followed by Red Cross cutting but the Red Cross needed garments cut so badly that the programs had to be discontinued. The educational work of the Association has suffered because of the amount of staff and volunteer time which has been necessary for finance efforts. The public affairs committee has helped with the distribution of post cards to be sent President Roosevelt, in sending appeals concerning World Court and minimum wage legislation and has worked with the local Cause and Cure of War council in its organization. Since there has not been a full time Health Education secretary for a year and a half the health work has been reduced materially but there are still 2 self supporting gym classes. We also had a very full program of free recreation including roller skating, basketball, bowling, dancing and parties of all kinds.

Camp East Brook closed a very satisfactory reason last year with 147 campers and 7 counselors. Preparation for the 1933 camp are well underway with improvements to the tennis court and the pool made possible by many volunteers.

Activities which included all membership groups were an all-association dinner in November, attended by 400, a membership meeting for the purpose of starting an emergency fund to wipe out the indebtedness of the Association, and the annual membership campaign in April which brought the membership up to 688, the most it has been in many years.

There were 7 Girl Reserve clubs organized this winter with a total enrollment of 400 girls (not including the 71 in Elm street Center club). The number of advisers totals 20 with 13 other leaders who did special work in dramatics, music, handicraft, sports and dancing.

In the International Institute classes in English and citizenship straighten out tangles arising in immigration and naturalization cases. During the past year classes in the following things were conducted: English, Italian, sewing, dancing. The total attendance amounted to 988. Club attendance totaled 2,128. Contacts with 16 nationalities were made. Plays, exhibits, receptions, picnic and educational trips took place. Contacts made number 1-630, of which 485 were new.

Elm street branch faced a crisis and met it by taking over the entire support of the work since January 1 with the exception of the secretary's salary. Through the Girl Reserve department of the branch 71 girls have enrolled in the 3 clubs conducted weekly. The Well Baby Clinic which has been conducted in the branch since 1928 is still proving very helpful to many mothers. Fifty clinics were held during the year, with a physician and tuberculosis nurse in charge. One of the Red Cross sewing units was conducted in the branch with 36 enrolled. Sixteen classes were conducted with a total attendance of 246.

National And State Bank Deposits Nearly Equal In This State

By ARTHUR C. WIMER
Special Washington Correspondent
NEW CASTLE, D. C., May 24.—

Unlike in the country as a whole, deposits in national banks were just about the same as deposits in state banks in Pennsylvania at the beginning of 1933, according to figures placed in the Congressional Record. Deposits in the 747 national banks of the Keystone State on January first totaled \$1,802,537,000. Deposits in the 485 state banks amounted to \$1,807,135,000. In the country as a whole, on the other hand, national bank deposits amounted to only 16

billion dollars as against 25 billions in state banks. These figures are being presented to show just how the proposed bank deposit guarantee would affect the nation. One school of thought here believes any such guarantee should insure deposits in both national and sound state banks. Another school, on the other hand, would limit the guarantee to deposits in only national banks.

This question of deposit insurance is expected to be the center of the greatest fight in banking reform legislation.

Class Of 155 Members Given Diplomas By Ellwood High

Largest Class In Ellwood City History Is Graduated Tuesday Night

Chief Address Is Made By Rabbi Samuel Goldenson Of Pittsburgh

ELLWOOD CITY, May 24.—Exemplifying dignity and wisdom in their place on the stage of spacious Lincoln auditorium, 155 members of the senior class were graduated from Ellwood City high school last evening in an auspicious and fitting manner.

The stage was decorated with beautiful spring flowers and ferns. Seated on it also were the school officials and the speakers.

The feature of the commencement exercises was the fact that the addresses of the salutatorian, valedictorian and commencement speaker were closely linked.

Salutatorian Speaks. After a few preliminary remarks in which she thanked all present for their participation and contribution to these exercises, Miss Norma McNeill in her salutatory address on "Culture and Service" explained to the gathering how culture is obtained and developed in the local high school.

She stated that culture is a training and development of the mental and spiritual power. It is a desire for growth and self-development and to appreciate the art of life. It is a curiosity in one which causes him to absorb knowledge, art and beauty. Culture can be acquired by anyone and needs only a start on the right path. Mere information is not culture. What brings this to you, inspires you and causes you to appreciate the beauties of life is culture. It is also the ability of a person to think in broad terms and search for the truth. Zest and delight are the essential qualities of culture. Culture is acquired and developed in the class rooms of our own high school which is done by a slow and sure process. All have opportunities to obtain culture because all are adventurers in life, have a desire for growth and advancement, and a curiosity to know things.

Valedictory Address. Miss Jennie Reiley delivered the valedictory address and used as her theme "Service and Culture". This she pointed out that culture is not had by service but is the characteristic of a person from early childhood. Culture and intellectual ability can be obtained from a period of training. She told of the colorful and active career of Jane Addams, co-winner of the Nobel peace prize, who is noted for her work in the upliftment and betterment of the common working man in this country and for woman rights here. By this Miss Reiley clearly illustrated the point of how culture can be of service and benefit to mankind. She stated that service is one of the main teachings in the high school. Then turning to her classmates she bid them farewell and urged them to take up gainful and notable occupations in life.

Dr. Goldenson Speaks. The principal address of the evening was given by Dr. Samuel Goldenson, rabbi of the Rodef Shalom temple, Pittsburgh, who was introduced to the assemblage as one of the outstanding thinkers of the district and country by Superintendent of Ellwood City Schools Vaughn R. DeLong.

Dr. Goldenson in a quiet, matter of fact, and straight from the heart manner and voice linked the subjects of the salutatorian and valedictorian by discussing "Character." He held the sincere attention of his audience throughout the address. Dr. Goldenson congratulated the graduates, commending them for their previous speakers, the graduation class, superintendent and principal, and teachers for their assistance in the past school term.

The speaker asserted that culture is turned into service by character. "Character is a great abstract term, a composite idea made up of a number of elements or ingredients. The requisites or ingredients of character are something in an individual that makes him or her outstanding or distinguished in a crowd and possesses some power which makes the individual new and different. These outstanding characteristics are controlled and directed in a masterly way towards a certain goal. It is stability in this person which makes him dependable and responsible which enables the common person to predict what he will do next or what to expect of him. A stabilized individual is lifted into the regions where the virtues work. His power is directed and used in gaining notable ends and recognized goals of life.

Of Service. The responsibility of this person makes him of service to mankind. An irresponsible intellect is one who has culture without service and character and is the most dangerous thing in life, according to Dr. Goldenson. In brief character is virtue. There are two tests for it, the speaker declared. The external test is merely observing the reactions of various people towards a certain individual. If this individual encourages confidences and inspires one in a certain manner, he or she has character. The internal test is interrogating your own lives and the answer is given when the truth is revealed.

He closed by giving a final word of advice to the class. He stated that they were entering a challenging world. It is up to them to reconstruct and reconstruct society by

introducing the value of character which has been taught them during their education. Take the thing as a matter of responsibility and make yourself useful to humanity and better times are bound to come.

Following this, Principal J. Ellis Bell read the class roll and H. W. Smith, president of the School Board, presented the new and beautiful diplomas as the class members marched up transferred their tassels accordingly. The benediction was pronounced by the Rev. C. F. Christensen, pastor of the local Trinity Lutheran Church.

Interesting music was provided by Prof. Paul Winter and his High School orchestra during the evening. There was a special trumpet selection by Stanley Wilson with the aid of the orchestra. Rev. R. H. Little gave the invocation.

This class is the largest in the school's history.

Pinchot Is Asked To Call Special Assembly Session

Group Of Labor Leaders Call Upon Governor With Legislative Requests

(International News Service)

HARRISBURG, May 24.—Gov. Gifford Pinchot on Tuesday was requested to summon a special session of the general assembly to consider "sweat shop" legislation and minimum hour and minimum wages for workers by a group of labor leaders, 25 of whom represented the Pittsburgh district.

The governor made no promises but assured the delegates he will sign the Kane "yellow dog" contract bill today at noon. The bill outlaws contracts which prevent workers from joining labor organizations.

John A. Phillips, president of the state Federation of Labor, said the group set no specific time for a special session but urged the chief executive to include labor legislation if, and when, an extraordinary session is summoned.

This recommendation was made during a general discussion of labor legislation, especially bills passed by the 1933 assembly that await the governor's action.

(International News Service)
NEW YORK, May 24.—The stock market soared to new highs for the year today following the official treasury announcement that the administration was embarking on its credit inflation program.

Trading was on an enormous scale and the high speed ticker fell 8 minutes behind.

The repeat stocks set a dizzy pace for the rest of the list with the rails close behind. National Distillers jumped more than 5 points and in the rails, Union Pacific set the pace with a 5-point upsurge.

Commodities and bonds boomed. Wheat and corn soared gains running to 2 cents a bushel. Cotton spurred \$1 a bale more.

U. S. obligations and rail issues led a buoyant bond market. Steel common went to a new high as did a number of other leading issues, including Du Pont, Allied Chemical and Case Threshing. Heavy profit-taking poured into the list during the session but this brought only temporary setbacks to the rise.

Swope Testifies
At New York In
Mitchell TrialPresident Of General Electric
Testifies Against Charles
E. Mitchell

(International News Service)
NEW YORK, May 24.—Gerard Swope, president of the General Electric Company, and former financier Confere and friends of Charles E. Mitchell today furnished evidence against the resigned head of the National City bank at his trial for income tax evasion.

It was with the General Electric Company that Mitchell began a career and worked his way upward to a dominating pinnacle in the canyons of Wall street.

Swope, a director of the National City bank and National City company, the latter an affiliate of the former, testified:

That Mitchell, at a director's meeting of the National City bank, referred to the 18,300 shares of national bank stock purportedly sold to his wife "as his own securities."

That Mitchell never mentioned the sale of this stock at him.

The stock transaction between Mitchell and his wife occurred on December 20, 1929 and the securities were repurchased by Mitchell from Mrs. Mitchell on March 24, 1932.

The directors meeting mentioned by Swope took place in the latter part of March, 1932.

The government charges the transaction between the Mitchells, on which the defendant claimed a loss of \$2,800,000 paying no income for 1929, was "a fictitious deal for the purpose of defrauding the government."

Alliance Plane Crash Is Probed

One Young Man Dies From
Injuries; Brother Is
Seriously Injured

PLANE CRASHES INTO TREE TOP

(International News Service)
ALLIANCE, O., May 24.—A federal
aeronautical inspector today prob-
ed an airplane crash in which one
man met death and another was in-
jured at Stocker airport yesterday.
The men, Louis Whitaker, 26 and
his brother Paul 19, both of Alli-
ance, were in a plane piloted by the
elder brother when the craft struck
the top of a tree at the north end
of the field and crashed to the
ground.

Paul was injured fatally. His
brother, in city hospital suffering a
combination of injuries, probably
will recover.

TOOK NO CHANCES IN ENDING LIFE

WASHINGTON, Pa., June 24.—
Making doubly sure his suicide at-
tempt would not fail, James A. Nor-
ris, 35, tied a rope around his neck,
stood on a tile, then fired a bullet
through his brain. The force of the
bullet toppled him from the tile and
the rope strangled him. Deputy Cor-
oner Blaine Day said the victim
committed suicide because of de-
pendency and alcoholism.

The tragedy occurred in a barn
at the rear of the Norris home
where the victim had been sleeping
for several nights to guard against
chicken thefts. He leaves his widow
and three children.

Correct this sentence: "If we show
a spirit of big-hearted generosity,"
said the statesman, "other nations
will be unselfish too."

Some News, Some Views, But
Mostly Just Observations
Of Interesting Things
Around New Castle

Every common pleas court has a
P. J. meaning President Judge.
Starting tomorrow, we have a B. J.
in the county, which means Beer
Judge. To his work of county treas-
urer, William O. Pitts, the Sage of
Mount Jackson, adds the work of
hearing license applications and
passing on them.

The title has nothing in common
with that other title, Judge of Good
Liquor. Pitts will merely judge the
applicants and not their products.
Qualifications do not include the
ability to sing Sweet Adeline, or to
dodge a set of swinging doors.

Seemed like old times on the
streets yesterday. Odd Hartsuff was
back with that infectious smile of
his and by now his right hand must
feel like a successful candidate the
morning after election. Everybody,
or nearly everybody knows him and
when he was making steel in New
Castle he knew all his men.

One of the monuments to his civic
work is the Elks Home on North
Mill street. Back before the war he
was one of the men who made the
building possible and our memory
goes back to the day they opened the
new Home for the first time. There
was enough purple ribbon in New

Castle that day to have wrapped the
Statue of Liberty up and everybody's
name was "Bill."

The June bugs seem to be bother-
ing out in Slippery Rock Township.
The Poet Laureate of Slippery Rock
Township takes time off from his
gardening long enough to pen the
following versified epistle to the
colony and needing a spot of copy
today we run it as is.

the June bug is a silly
cuss, he hasn't any sense,
he flies in drunken, eery
arcs, and wears no shirt or
pants, and where he comes from
what he is, and how the hegar
grows, and where he goes when
he goes out, nobody cares,
nobody knows.

Hidden away in West Pittsburg
there is a lad who one day was used
to the plaudits and huzzas of the
crowd. Occasionally he comes up to
New Castle but not often. He leads
a quiet life content to care for his
own business and let the other fel-
low do the rest.

A few years ago, and not so many
at that, he was a wrestler, a good
one apparently for he was the
champion of Germany. Then he left
the game and the country, came to
New Castle, and bothers but little
with sport or any other public func-
tion.

Perhaps it was because the wrest-
ling game developed into legalized
tombult and battery, or perhaps the
tumult and the shouting of the fans
began to irk. Whatever it was, he is
now one of the substantial citizens
of West Pittsburg.

TOPSY-TURVY ORGANS IN MISSOURI YOUTH

(International News Service)
KANSAS CITY, Mo., May 24.—To
himself and to his friends George
Schmitz, Jr., 19, has been an ordi-
nary driver of a grocery truck.
The medical circles of Kansas
City, however, found George to be
a person quite out of the ordinary
and worthy of much study because
of the peculiar arrangement of his
internal organs, all of which are re-
versed as to position.

Hell may be paved with good in-
